Mayor John Christensen called the meeting to order and welcomed everyone to council meeting.

John updated the council on the problems we are having with approximately 50 of our water meters, he stated that they have stopped working and we need to replace them. We will have to probably over the next few months replace over 200, but they are covered under warranty. John stated that he would like to order an inventory of 20 or more extra to have on hand and that cost is about \$3,500.00. Also we will need to upgrade our hardware because it is out of date for windows 10 and the cost to update will be around \$6,000.00. John went over how to pay for the upgrades and meters. After some discussion motion to approve the upgrade for the software and the new meters was made by Eric, seconded by Malynda. Motion carried.

Move to adjourn
